

Analog input module E7125-8AS

Features

- 8 independent analog inputs
- 24 VDC power supply
- RS485 interface
- Modbus RTU protocol

Specifications

Power supply	24 VDC
Power consumption	< 6 VA
Number of inputs	8 x 4-20 mA
Communication interface	RS485
Baud rate	Up to 57600 bit/s
Communication protocols	Modbus RTU
Protection class	IP20
Dimensions	H60 x W70 x L90 mm
Mounting	DIN rail
Terminals	Pluggable 3 way screw terminals
Operating environment	Safe indoor areas
Operating conditions	-10...+55 °C, < 80%RH without condensation
